Qualifications: I have spent most of my work life in managerial positions as a civilian working for the Department of Defense. A few years prior to retirement, I managed over 150 people, 10 offices in 6 western states and a budget of \$5+ million.

- I have capabilities in project management, concept development and personnel interactions.
- I have a high sense of morality, honesty and integrity
- I am fiscally conservative.
- I am skilled in written and verbal communication and presentation media.
- I have participated in teams throughout my life and have developed good team skills.

Managing philosophy:

- I believe that the role of government is to protect the rights of the people.
- I believe that government derives its authority and power from the people.
- I believe that the actions of government should be based upon fiscally sound practices.
- I believe that a government that governs least; governs best.
- There are a number of issues which affect the county and each deserves a full measure of appropriate study and community participation. These include: budget, roads, water, sewer, taxes, airport, community plans, emergency planning and services, and general services.
